

A person wearing a blue shirt is holding a large, dark, reflective sphere. The sphere's surface reflects the sunset sky and the person's arm. The background is a soft-focus sunset with orange and yellow light over a dark horizon.

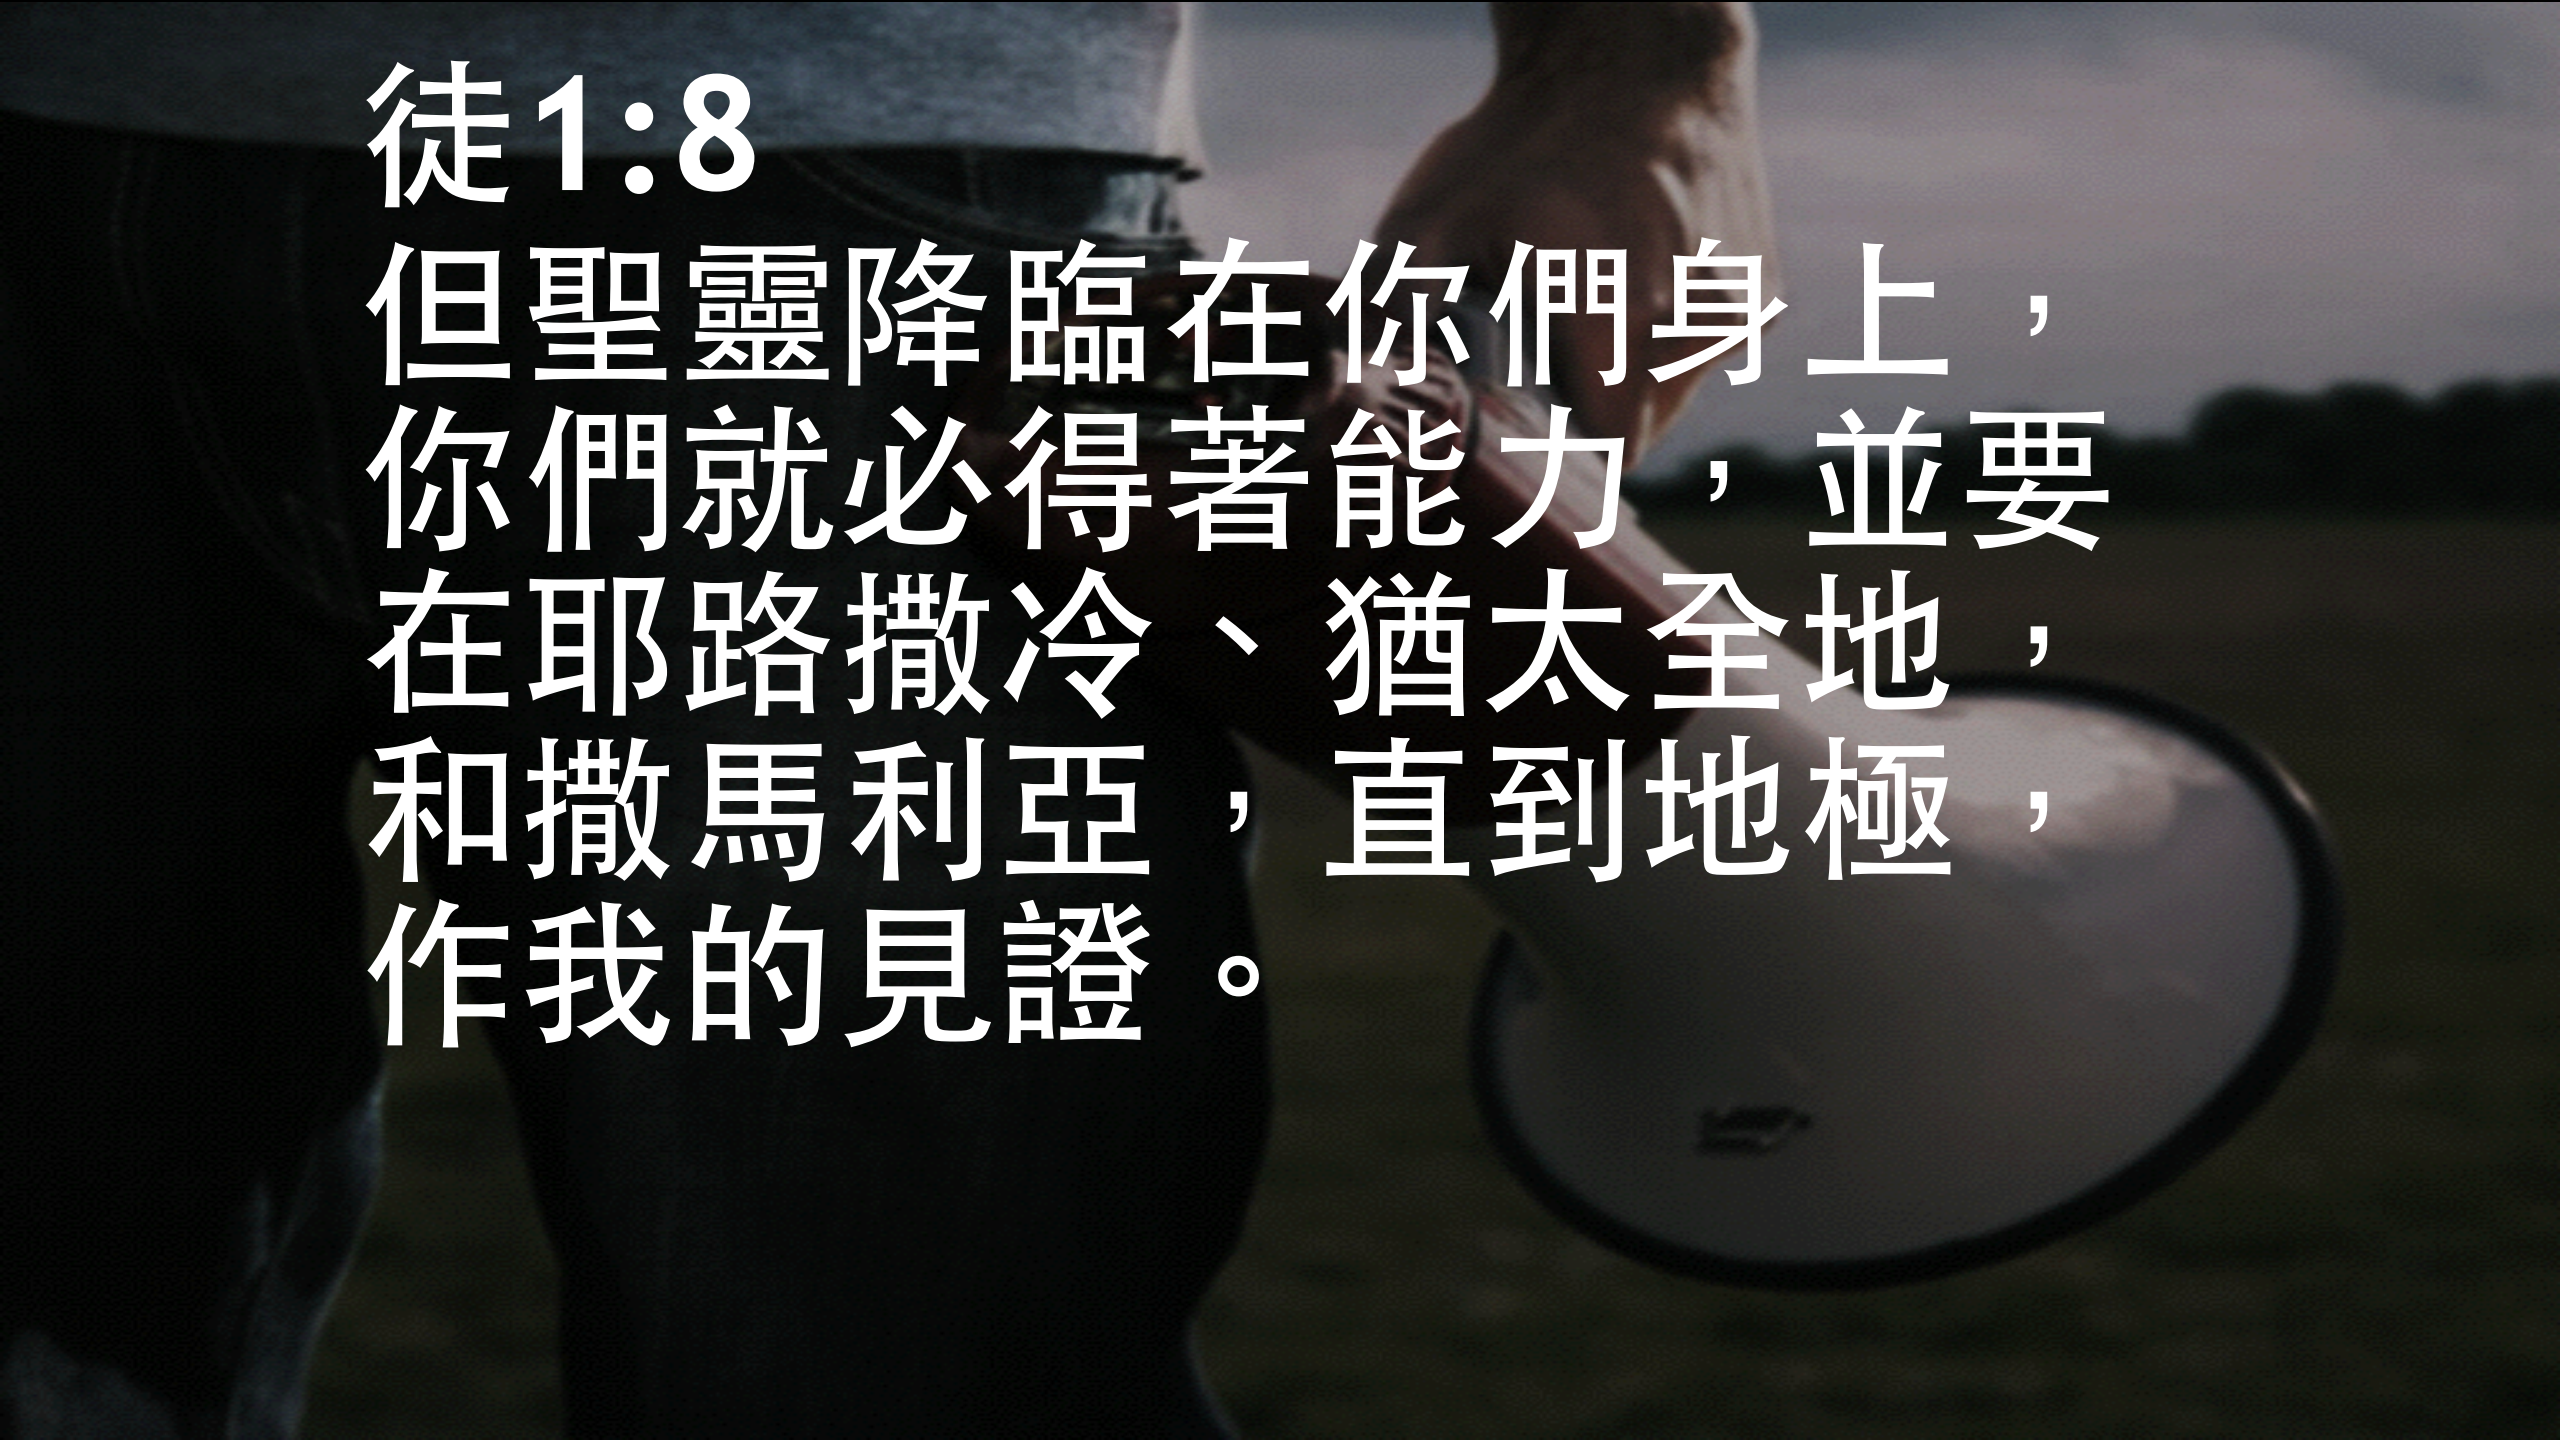

何況基督藉著永遠的靈，將自己無瑕無疵獻給神，他的血豈不更能洗淨你們的心（原文是良心），除去你們的死行，使你們事奉那永生神嗎？

（來9:14）

我是葡萄樹，你們是枝子。常
在我裡面的，我也常在他裡面，
這人就多結果子；因為離了我，
你們就不能做甚麼。

(約15:5)

A person is seen from the back, standing in a field. They are holding a large, dark, circular object, possibly a shield or a large mirror, which reflects the sky and the horizon. The scene is dimly lit, suggesting dusk or dawn.

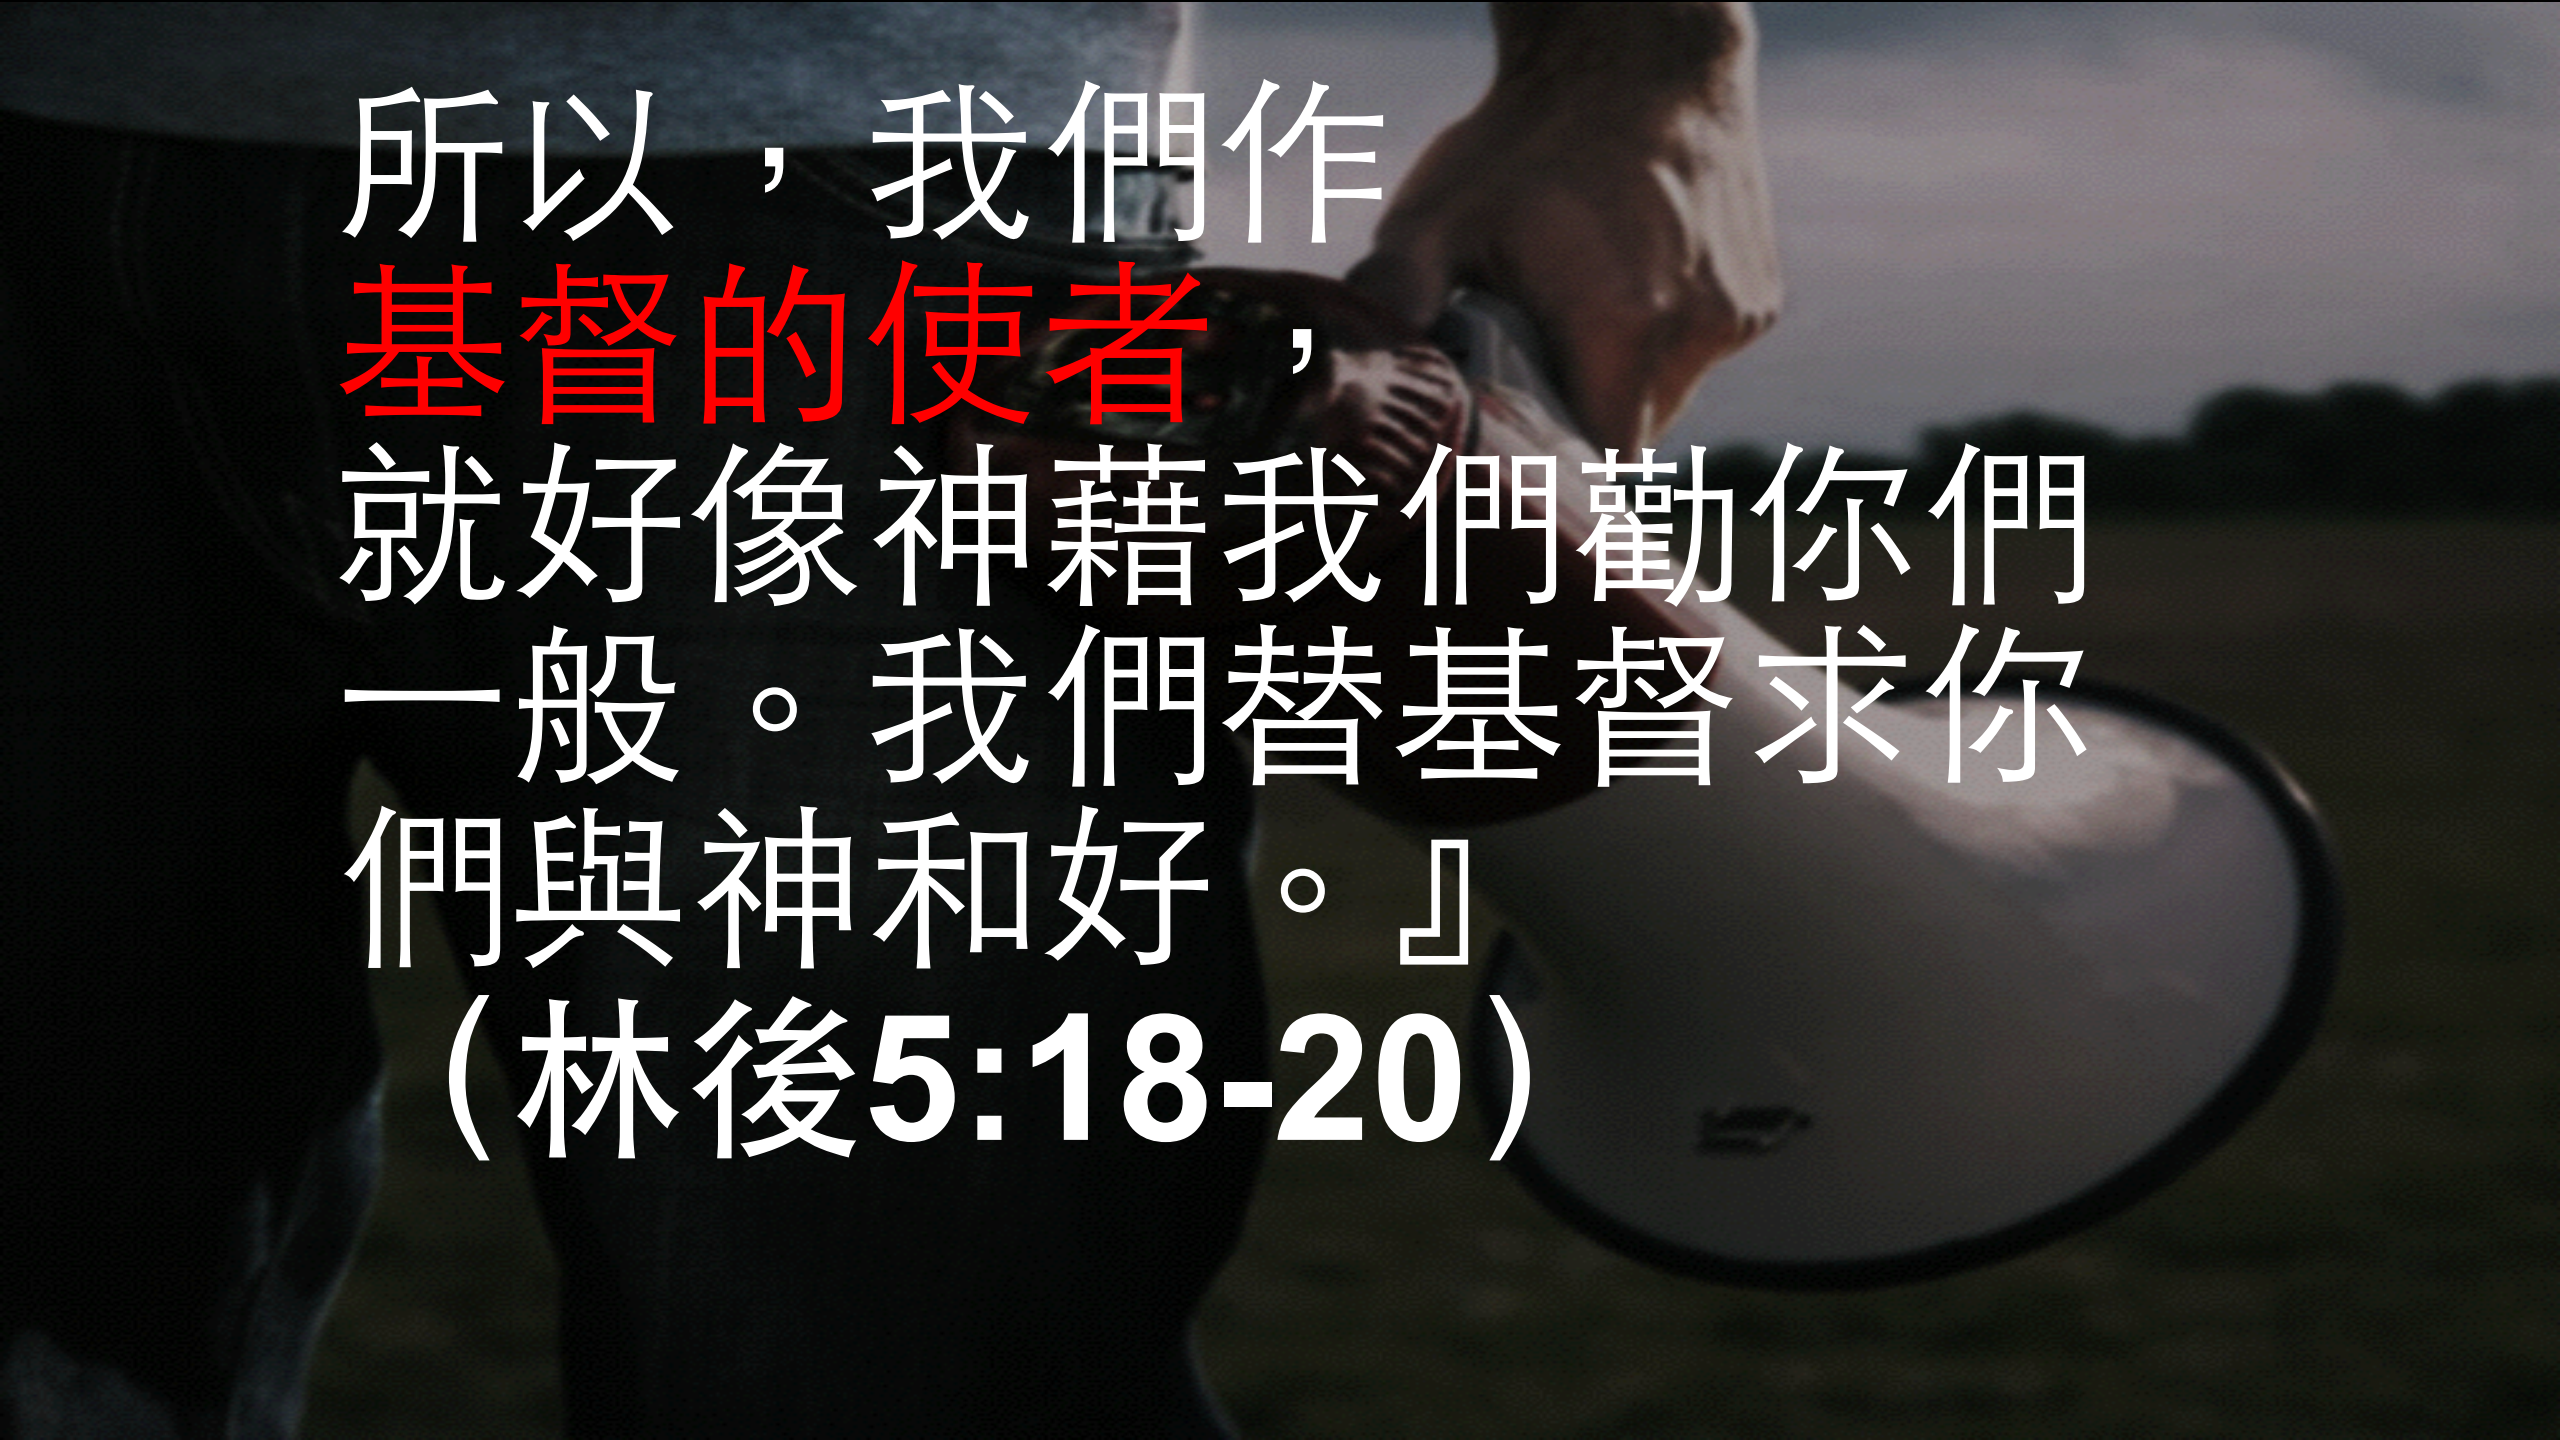

徒1:8

但聖靈降臨在你們身上，
你們就必得著能力，並要
在耶路撒冷、猶太全地，
和撒馬利亞，直到地極，
作我的見證。

A close-up shot of a person's hand holding a red and white megaphone. The person is wearing a blue long-sleeved shirt and blue jeans. The background is a bright, sunny outdoor setting with a green field and a line of trees in the distance. The megaphone is red with a white horn and has some small lights or buttons on the top. The overall tone is positive and energetic.

神蹟代言人

『一切都是出於神；祂藉著基督使我們與祂和好，又將勸人與祂和好的職分賜給我們。這就是神在基督裏，叫世人與自己和好，不將他們的過犯歸到他們身上，並且將這和好的道理託付了我們。』

A person is seen from the back, sitting in a small boat on a body of water. The person is wearing a light-colored shirt and dark pants. The water is calm, and the background shows a distant shoreline with trees under a clear sky. The text is overlaid on the image.

所以，我們作
基督的使者，
就好像神藉我們勸你們
一般。我們替基督求你
們與神和好。』
(林後5:18-20)

一. 代言人的任務與權柄

a. 地上發言人

b. 傳和好的消息

c. 神蹟的出口

二.「神蹟」？

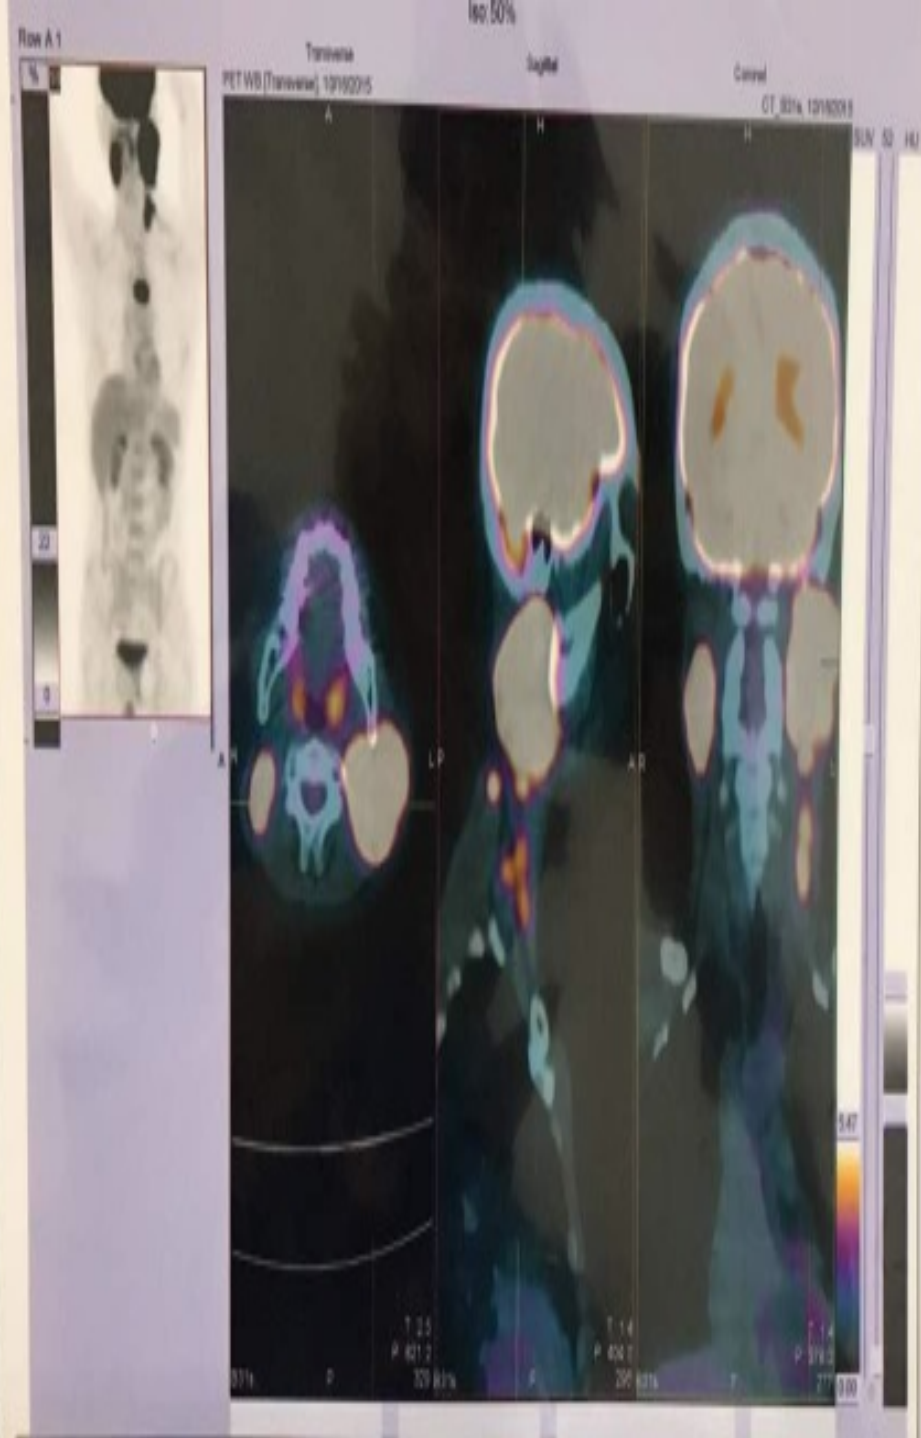

基督若沒有復活,你們的信便是枉然,基督也就沒有復活了
(林前15:17)

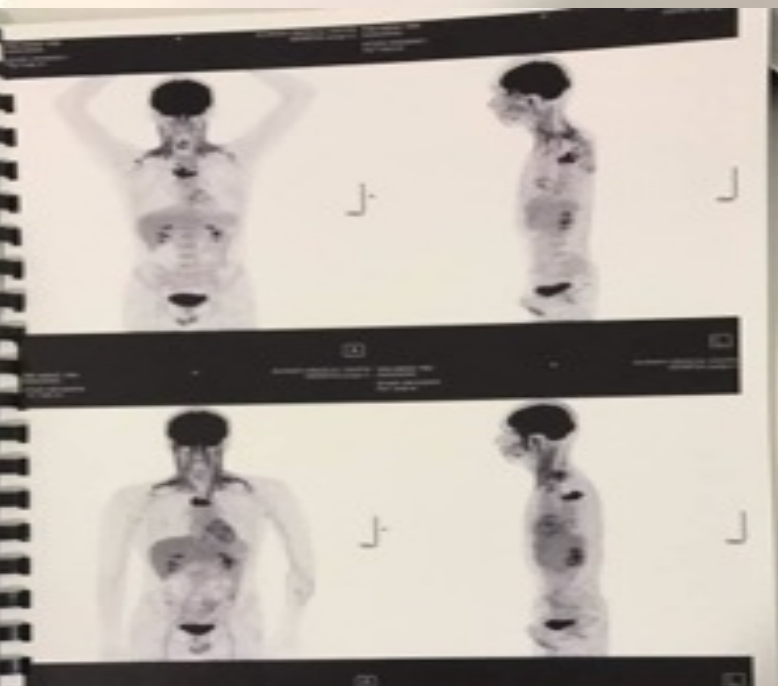

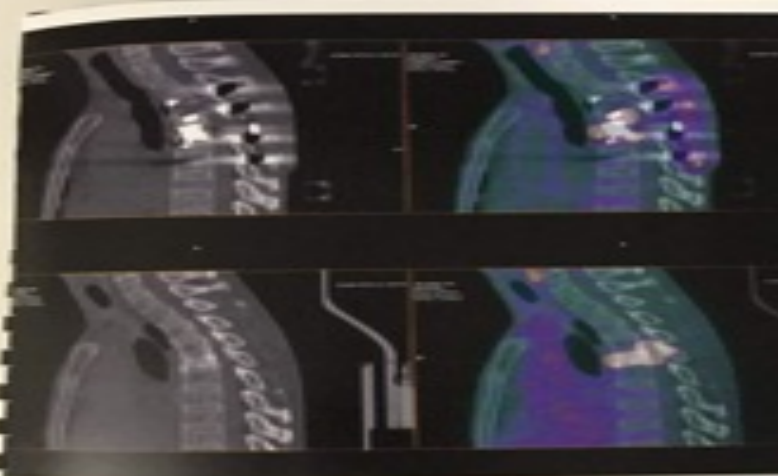

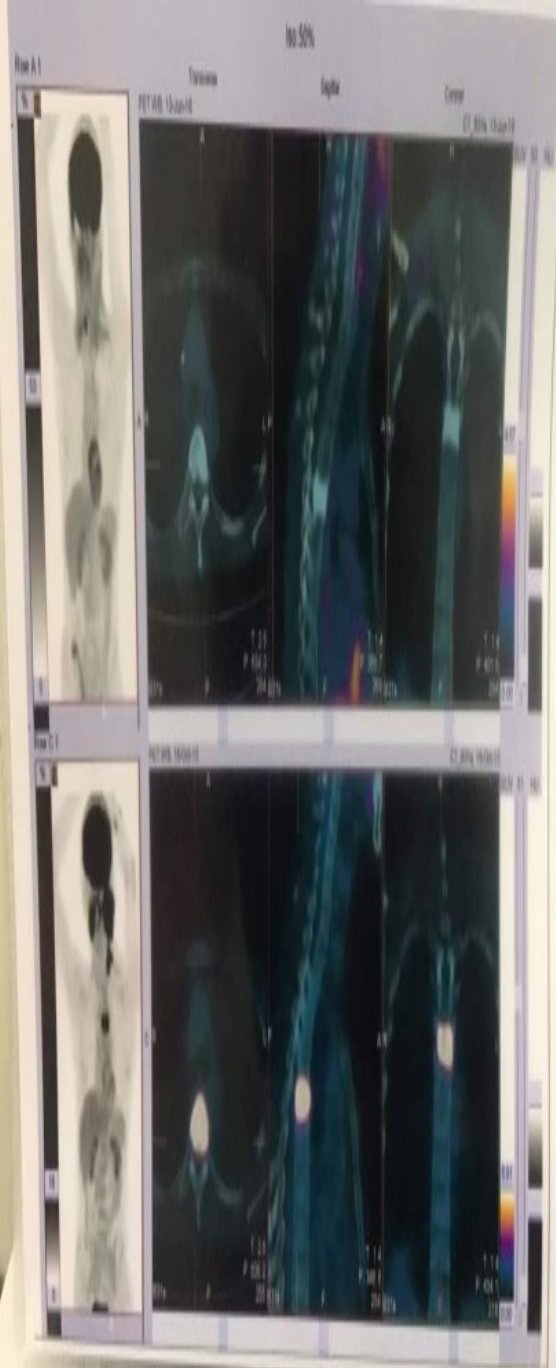

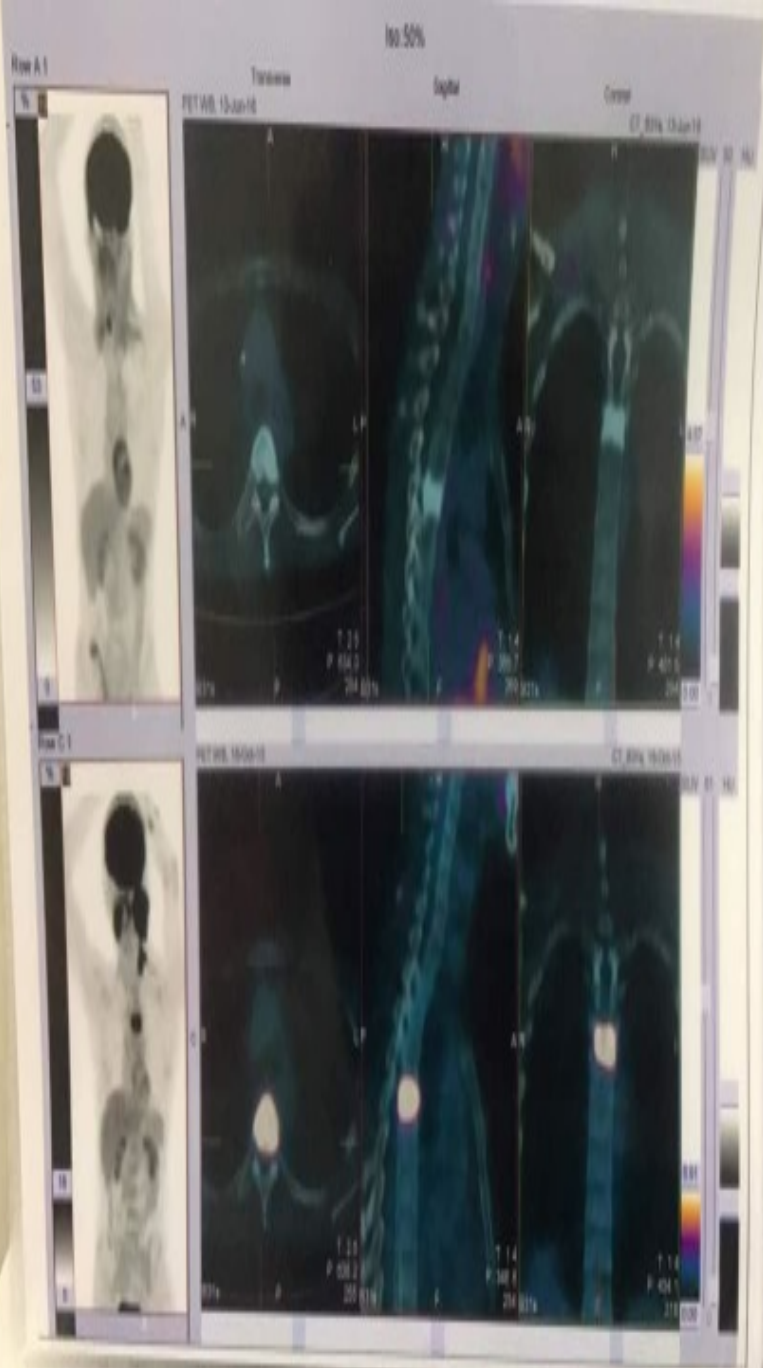

a. 在神凡事都能

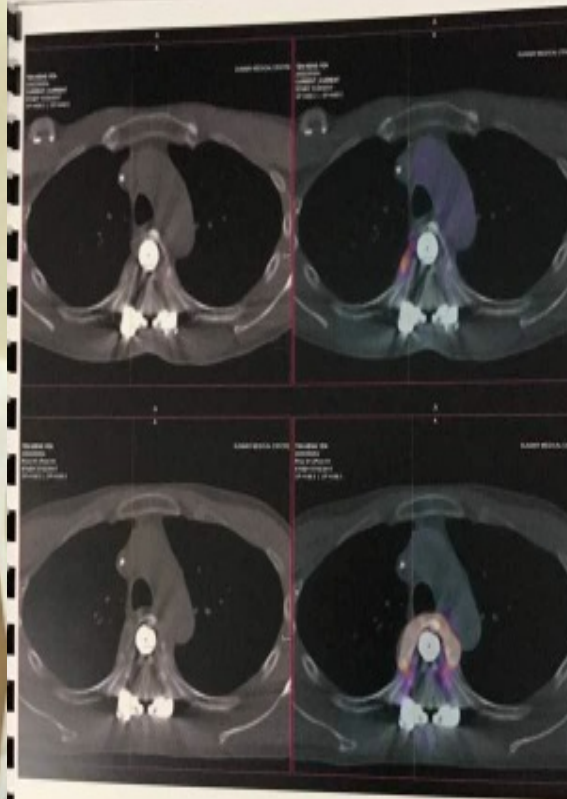

耶穌看著他們，說：「在人這
是不能的，在神凡事都能。」
(太19:26)

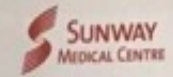

Physiological FDG uptake is noted in the heart.

Abdomen and pelvis:

Physiological FDG metabolism is seen in the liver, pancreas, spleen and adrenal glands.

No abnormal FDG uptake or enlarged lymph node is seen in the retroperitoneal or abdominopelvic region.

Physiological FDG uptake is seen in the bowels, kidneys and urinary bladder.

Musculoskeletal:

Previously seen focally intense FDG hypermetabolism at T5 vertebra has markedly reduced in intensity; currently, residual uptake is seen over the right side of vertebral body (current SUVmax 4.61; previous SUVmax 16.42).

Faint FDG uptake is seen at the peripheral of the metal instrumentation at T4 to T6 vertebrae, which is due to inflammation.

Disclaimer: Low spatial resolution of PET may miss tiny lesions especially with low metabolic activity.

IMPRESSION:

Interval reduction of FDG hypermetabolism at T5 vertebra; with residual metabolic disease at the right side of T5.

Interval resolution of FDG avid cervical nodes.

Small focal of asymmetrical FDG uptake is demonstrated in the mucosa of upper right fossa of Rosenmuller. Please correlate clinically.

No conclusive FDG avid lesion demonstrated elsewhere.

b. 彰顯神大能的作為

c. 神蹟的目的

要彰顯阿爸父對我們的愛-
保護神的子民-
把愛人的心放在我裡面，
憐憫引爆神蹟

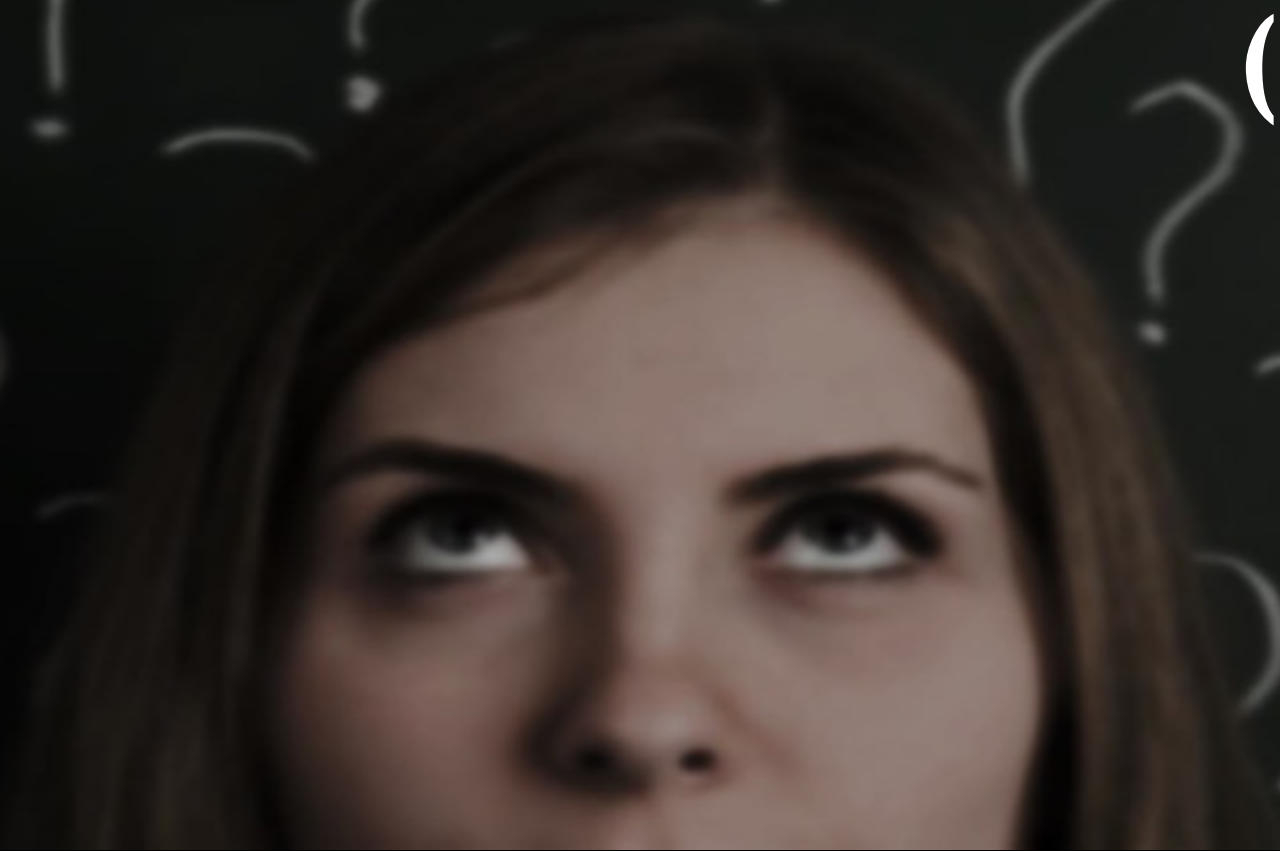

神蹟!為什麼還不來?

a. 等!等!等!

信的人必有神蹟隨著他們，就是奉我的名趕鬼；說新方言

(可16:17)

b.心!涼了

只因不法的事增多，許多人的愛心才漸漸冷淡了。(太24:12)
